

Transfer Advising Sheet for Health Science Program

**Florida State College at Jacksonville
Associate of Science Degree in Radiation Therapy**

**Articulated Program with Nova Southeastern University
Bachelor of Health Science**

This transfer institution has agreed to accept the specified associate's degree from Florida State College at Jacksonville. The Florida State College at Jacksonville graduate will be accepted at the junior level, and is required to complete the equivalent of two years of full-time coursework to complete the specified bachelor's degree. The following chart shows the specific courses that the Florida State College at Jacksonville student is required to take to meet the guidelines of the articulation agreement with the transfer institution.

It is very important to make sure that your Program of Study at Florida State College at Jacksonville is Associate of Science in Radiation Therapy. If you do not plan to transfer to this specific transfer institution, please follow the Program of Study, as specified in the College Catalog.

Radiation Therapy is a limited access program that is designed for individuals who wish to become certified in radiation therapy. Graduates of the program are prepared to function as entry-level practitioners. Students are strongly advised to complete as many of the general education courses as possible before applying for the program. A minimum grade of "C" must be maintained in all radiation therapy courses in order to continue in the program. Please contact an advisor or visit the Program of Study webpage for more information.
